- To provide Windows/Unix/Linux administration, Network operating center (NOC) administration, LAN/WAN/VPN administration, VMware administration, and intrusion detection and prevention (IDP) implementation and monitoring.

- Had to manage Firewall Using iptables(in Linux/Unix), Setting Up Proxy server in both Unix and MikroTik Routers, Setting Up Mail server(Sendmail and Postfix), Setting Up Web server(Apache and Nginx), Setting Up a DNS server(Bind), Setting up DHCP server, Setting Up a DHCP server, Setting Up a FTP server in both Linux/Unix.

- I was responsible of allocation of Bandwidth and Internet Protocol Address (IP address) among in-house and client infrastructure by mean of both windows and Unix(Linux and MikroTik Routers).

- It was on me to setup, maintain and monitor organization's and clients wireless network by setting wireless access points and wireless clients.

- I Managed system security through setup and ongoing maintenance by IDP software, various patch and latest software and anti-virus as well as hardened security of both in-house as well as client's vulnerable network with robust security through joint architecture of firewall and snort.

Professional Certification

1. Eccouncil certified me as **E|CSA(Eccouncil Certified Security Analyst)** as all requirements and criteria for said certification through examination were successfully completed.
Certification Number: **ECC93298374538**
Exam date: **21th December,2013**
2. Eccouncil certified me as **C|EH(Certified Ethical Hacker)** as all requirements and criteria for said certification through examination were successfully completed.
Membership ID: **ECC961022**
Exam date: **22th of April,2011**

Technical Knowledge

System Administration

- Hands-on working experience on System Administration configuration knowledge on **iptables, Squid Proxy, Sendmail** and **Postfix, Apache, bind9** and **DNSSec, DHCP, FTP, Syslog, MySQL server,Snort,PSAD,Nagios,MRTG,SNMP,Openswan VPN** etc on **Red hat Linux,CentOS, Debian, Ubuntu, OpenBSD, FreeBSD operating system.**
- Knowledge on **Networking** and **package management** on **Solaris 10** OS.
- Knowledge on cloud computing using **Openstack** (Keystone,glance,rabbitMQ,Nova,Nova-compute and horizon)
- Working knowledge on **Linux container** and networking using **LXC,Vagrant** and **Docker.**
- Knowledge on Virtualization using **VmWare** and **VirtualBox.**
- Working knowledge on configuration management tool **Ansible.**
- Working knowledge on **version control system** using **git.**
- Working knowledge on **Bash scripting** and **Python.**

Security

- I have years of experience on **Network Security operations and management** along with Sound knowledge on **TCP/IP** and **IPS/IDS (Snort, psad)** and other security tools includes in **Backtrack/KaliLinux/Blackbuntu (Nmap,Nessus,Nexpose,OpenVAS,Metasploit, Wireshark,Burp suit** etc)
- I have also expertise on **maintenance of the security policy, standards and procedures, review firewall rules, recommend required actions,penetration testing and vulnerability assessment.**

Computer Networking

- Experienced on **routing** (**OSPF,RIP,EIGRP,BGP** and static etc) and **switching** using **cisco,juniper** routers and switches and **quagga,vyatta,VyOS** in linux.
- Hands on experience of providing network security, access-control, policy build-up, routing, switching, natting, filtering, User Authentication, configuring vpn (ipsec), load balancing etc using **cisco ASA, juniper SRX, Checkpoint, PaloAlto, fortigate, F5 BigIP, pfsense, Astaro Linux,Mikrotik** and **Netscaler** Unified Threat Management (**UTM**) platforms.
- Hands on experience on natting, gateway, redirection, access control, traffic shaping, bandwidth management using **Pf** on **OpenBSD, FreeBSD** operating system.
- Knowledge on **Software defined Networking(SDN)** using **openvswitch, openflow** and **opendaylight**.
- Knowledge on **Wireless Networking** configuration and WEP,WPA security technique .
- Knowledge on **Bandwidth Management** in Mikrotik, **HTB** in Linux, **ALTQ** on BSD operating systems.
